Selvaraj C
Software Developer

As a recent undergraduate with a degree in Computer Science and Engineering, I am eager to begin my career and bring my strong academic background and passion for IT field to a dynamic and growing organization. Through my coursework and internships, I have developed a strong foundation in Core Java, Html5, CSS3,and Java script and I am excited to put my skills to work and continue to learn and grow in a professional setting. I am a hardworking, dedicated, and driven individual with a strong work ethic and a desire to succeed."
